The complete Manual about Sailor Mars, the Scout with the power of fire!

All the secrets about Raye: her origin, how she transforms into Sailor Mars, and even her secret moves! Everything you want to know is in this book! Read this, and you'll become the greatest Sailor Mars fan in the world!

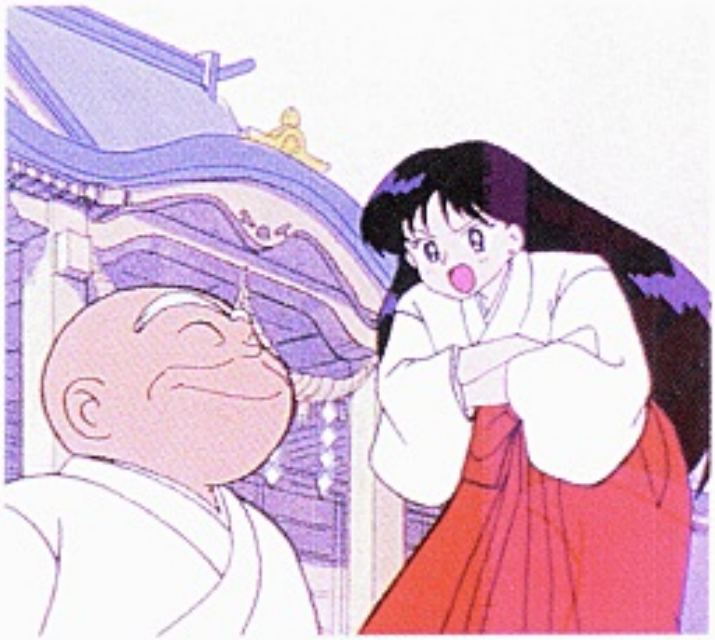
The Secret of Sailor Mars' Birth

Can you remember the first time Raye transformed into Sailor Mars? Here's Raye's first battle.

Scout Guide

Lately, Raye's powers have been off: Today she mistakes Serena for an evil spirit!

Raye transforms into Sailor Mars! After a series of mysterious events nearby, Serena heads for the Hikawa Temple.

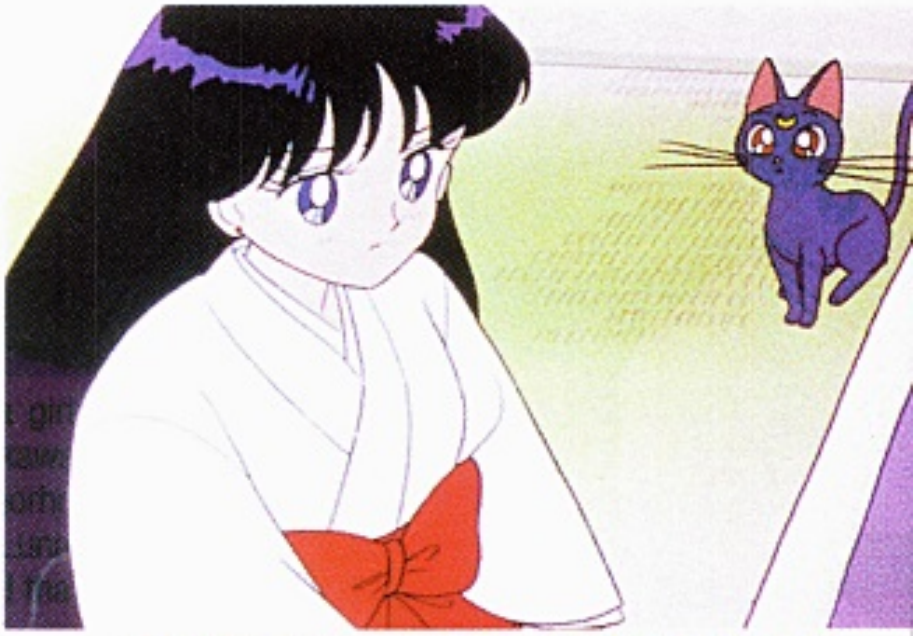


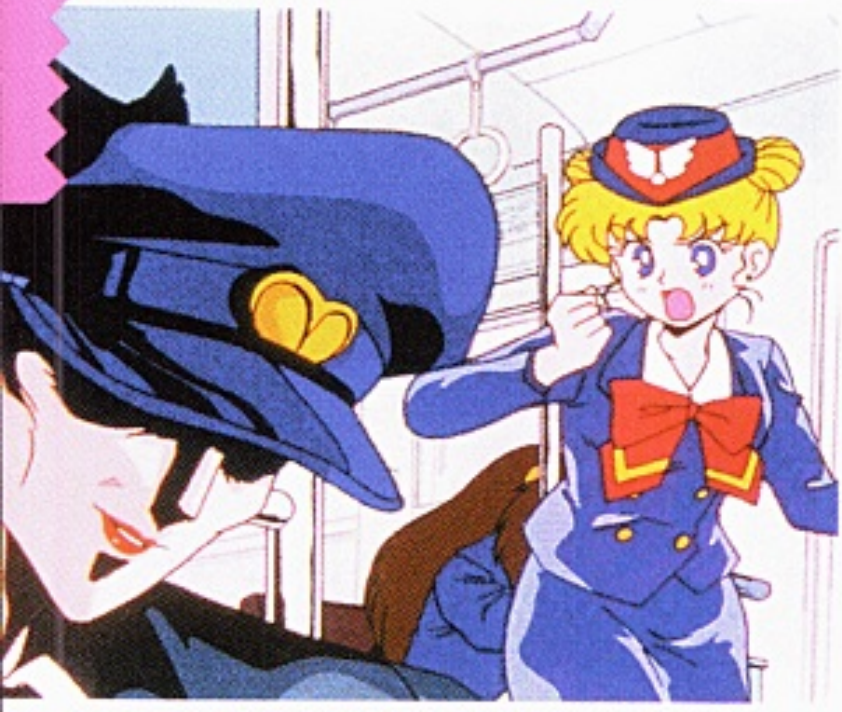
Raye was well known as the girl from the Hikawa Temple with psychic powers. She has a good reputation for telling fortunes. Raye senses an evil presence with her psychic powers. Is this an Enemy?

She tried to enlist the help of the psychic girl from the temple, but Raye's predictions were all wrong for some reason.

When Luna hears about what happened, she suspects that these events are the work of an evil creature. Just as she thought, the disappearance of the bus was caused by the Negaverse. Bunny follows the bus, and is swept into another dimension. Raye discovered who Jedite really is, and is transported there too. Thanks to Luna's quick thinking, Raye transforms into Sailor Mars and defeats the monster.

After a girl disappeared while visiting the Hikawa Temple, a crowd from the neighborhood stormed the building. After Luna saw Raye's abilities, she sensed that Raye was no ordinary girl.





Raye thoughtlessly chases away a person who was suspicious of her grandfather.

Serena uses her magic disguise pen to transform into a stewardess, and then hops on the mysterious 6 o'clock bus!

Using her fire divination, Raye finds out who caused the 6 o'clock bus disappearances.

Raye asks the mysterious young man about his true identity.

The young man was Jedite!

Raye is captured, but is that a mark on her cheek?

After Raye discovers his secret identity, Jedite sweeps Raye into another dimension where the monster awaits her.

ehead is
or Scout.

Luna tells Raye about what happened, and she is surprised when Luna names her Sailor Mars.

The mark on her forehead proof that she is a Sailor Scou

Her magic pen in hand, Raye transforms without losing a moment.

With a battle cry, the flames transform Raye into Sailor Mars.

Sailor Mars unleashes her anger and attacks.

Sailor Mars blasts with her secret power: Fire Ignite!

The Sailor Scouts escape on the bus with Tuxedo Mask driving. The hostages are rescued!

If they have just become friends, why don't they get along very well?

Amy's desperate prayers bring Sailor Moon and the kidnapped people back home safely, and they are reunited with their friends and family.

Sailor Mars first appears.

This was how I transformed with the Transformation pen before I was powered up.

I Transform into Sailor Mars to guard the world from evil monsters.

Mars Power Transform!

Transformation Pen

Luna has Raye pick up the new transformation pen. When Raye uses it, her abilities power up.

Raye uses the pen Luna gave her it to transform into Sailor Mars.

MARS STAR POWER

Sailor Mars Action Pictures

Everybody get ready! In this section I'm going to reveal all my cool special attacks!

Scout Guide

Firebird Strike

Mars Fire Ignition

The spell merges with flame, and flashes toward the enemy.

Spells ward off evil spirits, and can be used for fighting.

Fire Ignite

This special attack shoots a flame of justice that defeats bad guys, destroying them instantly. The flame turns into a powerful fireball that tears into the enemy.

Celestial Fire Surround

Raye's heart can't stand evil, and creates a whole new attack!

The monsters can't defend against the power of the attack.

Enemies are severely damaged when hit by this ring of light.

This is my personal favorite attack-it has even more power than the MARS FIRE IGNITION! I gather the power of flame up into my left arm, and then shoot it all out at once. The flame turns into many flaming rings that fly at the enemy.

Sailor Scout introduction

Let's find out all about the personal life of Raye, who transforms into Sailor Mars and her exiting adventures.

Scout Guide

Before she goes to school, Raye cleans at the temple.

Raye can always divine the future.

She likes action, in true priestess style.

In her temple, she has two pet crows, Phobos and Deimos.

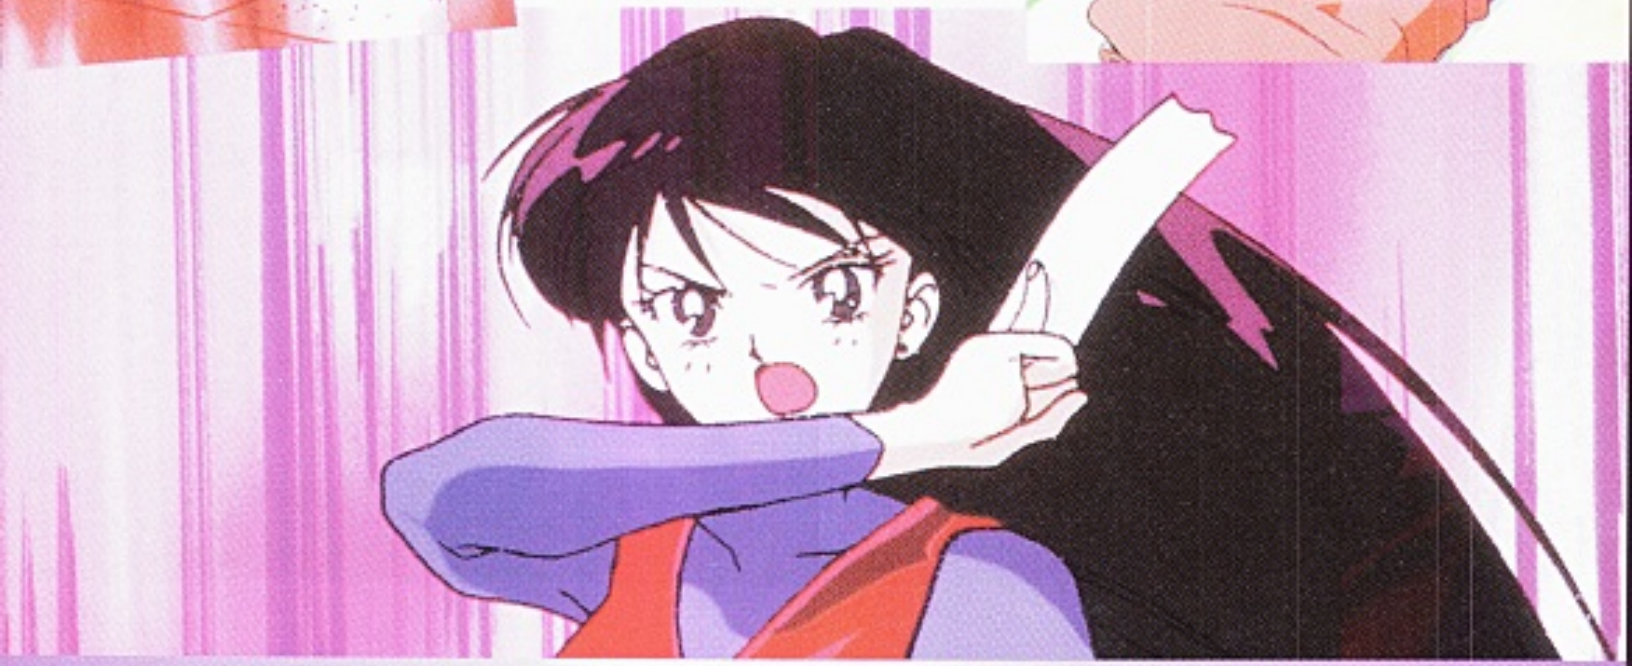
Raye loves cleanliness, so of course she loves baths.

Raye has heard lots of good things about Serena's mom.

Raye wears this style of Kimono when she sleeps at home. Japanese style really suits her.

Before she met Bunny, she was a lonely girl.

For some reason, she often catches colds.



RAYE HINO

Everyone meets at Hikawa Temple!
The girls often get together Raye's room for a study session.
Raye's room is filled with manga (comic books), so it's one of Serena's favorite places!
Hikawa Temple is the place where the Sailor Scouts plan their strategies.
奉納

Raye's grandfather acts silly with young people, it's his hobby. The temple has been under attack more than once because of his pranks.

Raye says: "Grandfather loves to be silly. But he's really a kind person who has always been very good to me. Naturally, he has psychic powers like me."

Raye's grandfather often listens obediently to what his own granddaughter tells him to do; it's amazing!

People At Home

Raye rarely goes out, except to go to the temple.

When he saw Raye the first time, he fell in love with her and decided to live at Hikawa temple.

He's a nice boy, and always worries about Raye in secret.

Raye says: "One day A boy named Chad showed up at the temple. He has long hair, and doesn't bother to shave as much as he should; but even though he looks a little weird he's actually a very serious person. He's saved me when I was in a pinch more than once, without thinking of the danger to himself. Apparently, his parents are very rich."

Raye's Fashion Album

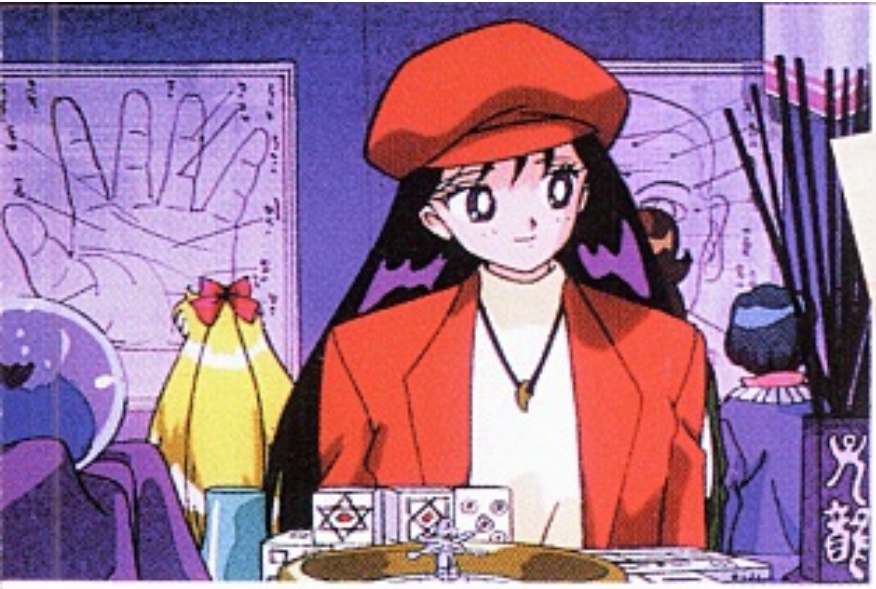
Raye is wearing a track shirt and short shorts this summer. Is this too daring?

Raye's usual Priestess outfit is authentic Japanese style. This is her best look, no matter what.

Here's Raye's casual look, sporty shorts and polo shirt.

This skirt and knee-socks really show off her slim figure.

Here's a look at Raye's fabulous different styles. Which look is your favorite?



A red coordinated blazer and cap, worn over a knit dress.

A high neck sweater and leather outfit. This is one of Raye's favorites.

Here's a close fitting dress in Raye's color, red.

Raye's chic business blazer.

California style pants and a flannel shirt. American wild casual style looks cool, doesn't it?

This pink jumper Raye wore to visit an anime studio.

RAYE HINO

Raye's Summer Fashion!

It's summer, and here I am, sunbathing on my chair. I have to be careful not to get a sunburn! Aren't my sunglasses cool?

This strapless, one-piece swimsuit is my favorite!

When I'm at the beach, I tie up my trademark long hair.

They are wearing silk party dresses. If they could dance well, it would be great.

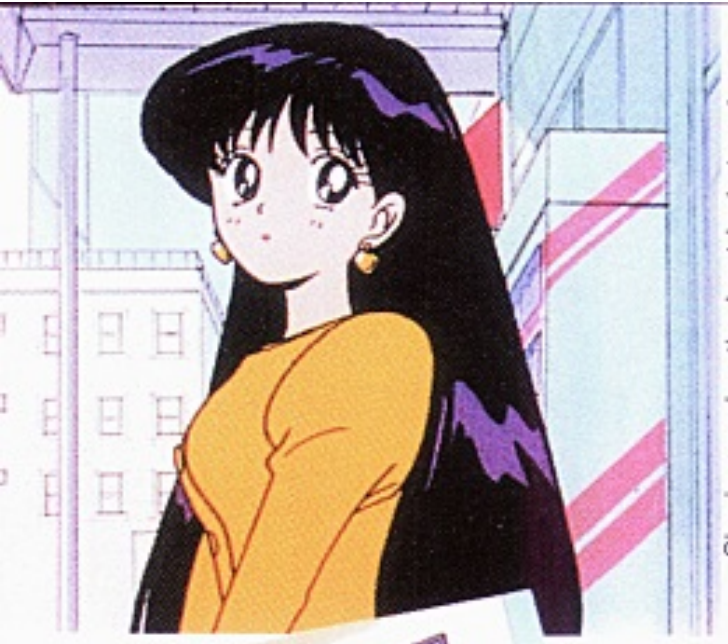
Remember when I was in charge of the Jyuban Festival. I looked good in a yukata (kimono for summer). Yukata are beautiful aren't they.

Raye is wearing a simple red dress and knitted leggings.

I always wear tight outfits to emphasis my physique. I usually go for monotone clothes, at least that's what I usually end up with.

She is wearing a cashmere dress, vacation clothes to wear at the place near the beach.

She always wears either yukata or a pink negligee when she sleeps.



She is wearing the boat jacket and flared skirt that she wore when she asked Darien out for a date.

Raye has ski wear on. She looks good in this doesn't she?!

She's wearing a t-shirt and hot pants.

She wears pants lot. It's her casual style.

She's wearing a tradtional party dress.

She also likes to wear loose fitting sweaters.

She's wearing a casual shirt and denim pants.

RAYE HINO

Raye's Amazing Photo Collection

"Gather 'round, everybody! Here's where you can find awesome photos I picked especially for you!"

Scout Guide

"We did a play, and Raye's part was a bear!"

"Raye, I'm the REAL princess! How could you?!"

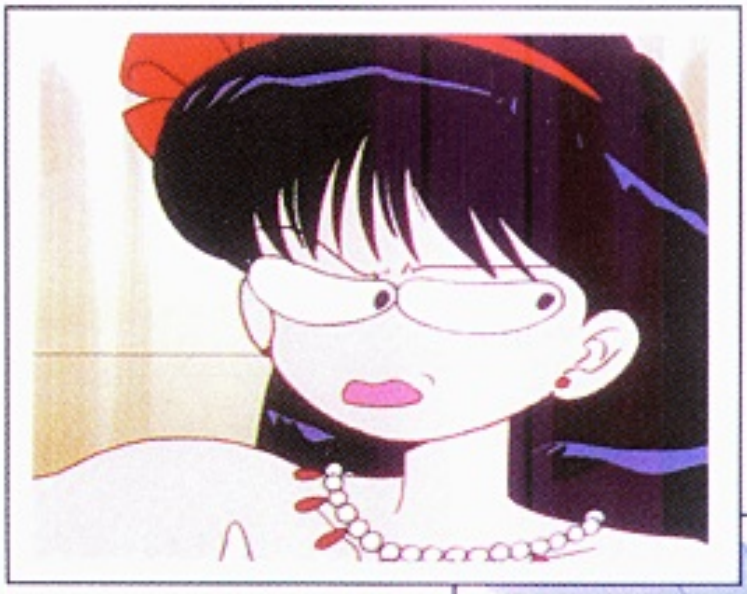
"Well, we were at the amusement park, so what's so wrong about having a little fun? Oh please, don't give me that look!"

"Don't look so disappointed because Darien isn't home!"

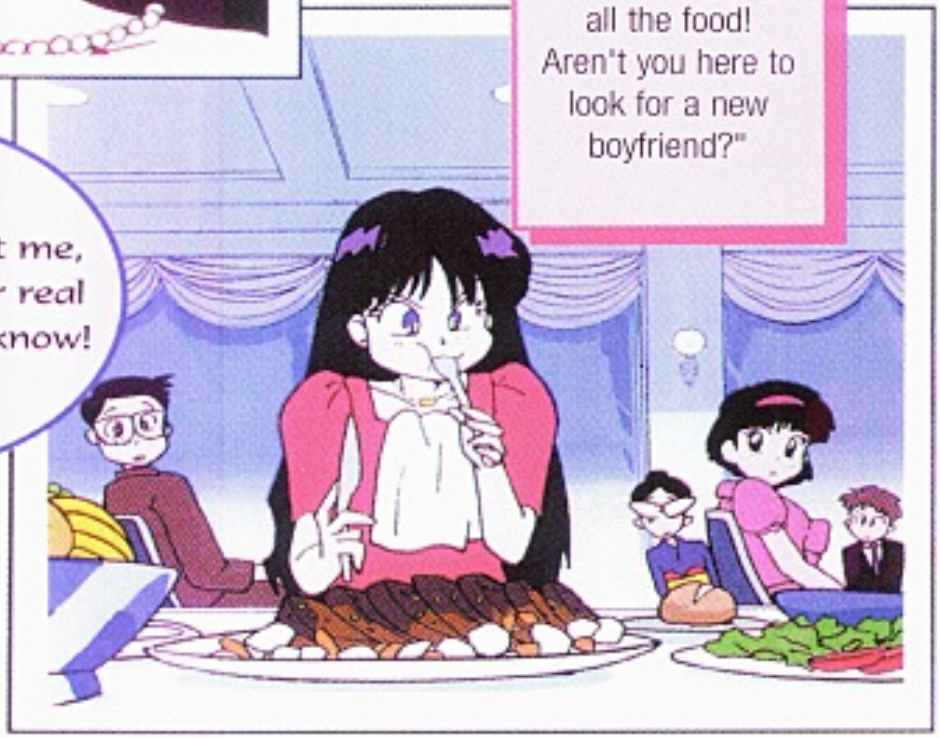
I collected lots of fun photos. It's a must see for all of you Raye fans out there!

"Look at her style! Even Raye can't compete with her!"

"Raye lost her temper when she found out that Rini is really my daughter from the future!"



"Raye has a weak point too! It's dancing."



"You're hogging all the food! Aren't you here to look for a new boyfriend?"

Don't get mad at me, Raye. It's all your real personality, you know!

"I didn't know Raye wanted to become a nun!"

"Oh, she's the fire warrior, all right. Look at how mad she gets!"

"Raye looks surprised, and so was I."

もうおそい
"You shouldn't neglect your school work like that. I guess that goes for me too!

"Raye's smart aleck face! It's her ultimate move!"

Just look at Raye's expressions in these shots. She's too much!

Traps are spread out over the Princess Contest.

The sailor team came to enter in the Moon Princess Skiing Contest held at the Moonlight Ski Slope. Skiing techniques and beauty are judged; but except for Raye, no one is too confident of their skiing. Amy and Mina decided not to enter the contest; but Serena did out of pride. The contest began, but something seemed strange: a monster had secretly joined the contest in order to kill Sailor Moon. They fell for the trick, and became trapped between walls of snow!

Raye's skis like a pro, so there's no way Serena can beat her.

The huge silver city spreads out before their eyes.

The Moon Princess Contest was just Kunzite's trap.

When the contest begins, Serena panics a little.

Traps are set everywhere along the course. Raye is in danger!

They realize that if they transform, they have a chance.

Chad shows up just as Serena is about to transform.

Chad is frozen by the monster's ice attack, so now Raye and Serena can transform.

A monster set all the traps!

Raye is carried off by the monster, pretending that she's the princess.

Sailor Mars to the rescue! Use your fire magic to save Chad!

Thanks to them, the monster is beaten.

Chad barely escapes with his life.

By the time the whole thing was over, Lita and the others were worried; so they came to meet Raye, Serena, and Chad. What a relief!

50 Secrets of Sailor Mars

This section is a Encyclopedia for all your questions! I'll give you quick, sharp answers to any questions you have!

Complete Sailor Mars Encyclopedia

Birthday?

I fought Lacey on my birthday.

It's on April 17th, I'm an Aries. My birthstone is the diamond.

Where do I live?

I live at the Hikawa Temple in Moto-Azabu, the Minato district of Tokyo, Japan. It's next to Azabu Jyuban, where Serena lives. The disappearances that took place on the bus near the temple were my first experiences as Sailor Mars.

This house next to the Temple is where I live.

Blood type?

I'm too stubborn? I'm stubborn because you're so clumsy, Serena!

In Japan, we say that people with my blood type, AB, are the strong willed type.

Height and Weight?

If you see the five of us lined up, Lita is definitely the tallest!

I'm a head shorter than Chad.

Height? I haven't measured lately, so I'm not sure. But I'm about as tall as Mina, I think. Weight? Oh, I'll leave that up to your imagination!

Life at home?

Chad isn't too sharp, so he's very easily flattered.

Grandpa and I live at Hikawa Temple, and I have a father who is a politician; but he's very busy and we haven't seen him for quite some time. Also, Chad who is going to train under Grandpa lives with us now.

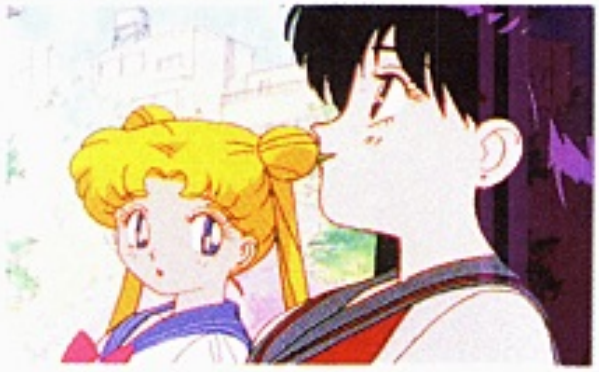
Any bad habits?

Maybe one is I stare too hard right at people? I don't mean any harm, but the person I stare at may not feel comfortable. I better try to change that.

It's a habit from practicing prayers as a priestess.

Dream for the future?

I guess it's to become a singer and songwriter. Anyway, I want to become a hard working career woman, and live a good life.



Any hobbies?

Being a priestess at the temple isn't a hobby!

Trying to see the future, and prayers are similar, but they're different.

I like anime as much as manga!

Reading (well, it's actually only manga...) and trying to see the future. I like setting melodies to my poems, too.

Least Favorite Food?

Well, the porridge that Mina made would be in that category.

There's canned asparagus; I don't know why, but I just can't eat it. Fresh asparagus is OK, though.

Favorite Food?

I like gourmet food - but compared to a sumptuous dinner, dinner comes first!

I like Japanese specialty dishes like Blowfish, Blowfish-nabe (soup)... any Blowfish dish is absolutely my favorite. I also like different foods like Thai.

Favorite Sport?

They seem alike, but skating and skiing are completely different.

I'm a semi-pro skier. As for other sports, well...

I make fabulous ski tracks in the snow!

Favorite Color?

Most of my bags and clothes are red.

It's the burning color of Mars: red, of course! Black is a favorite also, because it's stylish!

Special Power?

To call on my psychic powers, I calm myself like this.

It's definitely a Zazen position (a sitting position in Zen used to raise concentration). I bet Serena wouldn't last five minutes before her legs go numb!

Favorite Type of Guy?

I had a crush on Darien a while ago.

I wasn't too interested in boys at first - but a handsome guy like Darien, is OK by me!

Worst School Subject?

To be honest, I'm not too bright in English as a foreign language (remember, I'm Japanese), or mathematics either.

Probably modern history isn't something that I do well. Could it have anything to do with me not getting along with modern trends?

Favorite School Subject?

It's too bad they don't test calligraphy on the SAT.

It could be that I'm good at calligraphy because I'm a priestess for a temple; I'm quite clever at it.

Most Wanted?

Oh, how could I let slip that I'm an anime otaku (fan)?

I want an animation cel, and a manga signed by a famous manga artist, a photo book of Takarazaka stars, and, and...!

Favorite Fashion?

I'm not particularly into looking 'sexy' you know.

In my case, I seem to like to wear close fitting, soft-looking one-piece dresses.

Favorite Place?

Well, I could get away from that rowdy Serena if I were at the ocean floor...

Deep, deep on the ocean floor. Seriously, I think it would be wonderful to get away from the city and spend some peaceful time alone.

Least Favorite Activity?

Fast food isn't bad, is it?

Um, it's cooking, I think. It's not that I hate making food; but I don't have the time, and you know...

What About Chad?

He may not seem like it, but he's pretty dependant.

How do I feel about him? Well, I don't know... I guess I don't have any special feelings for him. Really!!

How's school?

I don't feel too bad about it, but be more independent - PLEASE!

Maybe it's because I go to a private all girls school, but everyone there depends on me to be like their queen. That's a bit diffficult.

Real Psychic Power?

Besides my prayers and divinations, I foresee the future in my dreams sometimes.

The truth is, that I only have a little bit more ESP than everyone else. You should have ESP, too.

Phobos and Deimos?

Both Phobos and Deimos settled down to live at the temple before I knew it

Both birds' names come from the names of the moons of Mars. I gave them these names of course; but they're not pets.

Chants?

I chant the words, 'Rin, Hyou, Tou, Sha, Kai, Chin, Retsu, Zai, Zen!'; and then I carve the nine symbols.

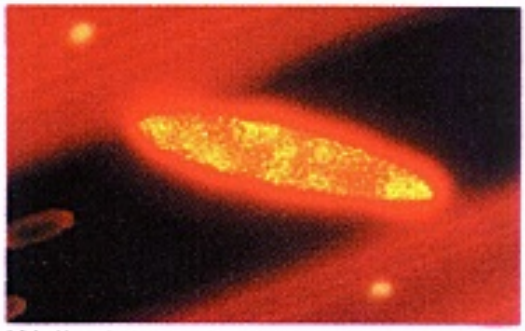
It's called 'Kyuuji Goshin no In' (The Symbols of Nine Protective Characters); and it's one of the ancient Chinese chants used as a talisman

Why a Priestess?

When I'm busy, I have Serena and the others help me out.

Well, my family has been protecting the temple for generations; and I'm worried about Grandpa doing things by himself, so I help out as a priestess.

Special Attacks?



Well, there's the combination attack of Moon Tiara Magic and Fire Ignite.

My new attack, Mars Flame Sniper!

This is my special force attack, to counter the combination play of Siplin and Puchirol!

I have the 'Mars Fire Ignite' and Celestial Fire Surround, and now I have a new attack called 'Mars Flame Sniper'.

Ward Effects?

If they're used on real ghosts, they should be quite effective.

I guess you mean the cards, which I call Sticker Talismans. They're wards with spiritual powers to ward off evil spirits.

Mars' Star Power?

I cannot continue using the power because that would use up all of my energy.

When I help Sailor Moon, I will collect my energy into my Tiara.

Communicator?

It's convenient, because I can contact everyone at the same time.

It's purpose is to contact everyone in case of emergencies. It was a calculator type communicator first, but now it's a wristwatch communicator.

First Transformation?

I was surprised when I transformed the first time!

It felt as if my whole body was filling up with power when I was wrapped in the red flame.

Most Powerful Enemy?

There was one time when she directly attacked the Hikawa Temple.

She was a fire warrior like me, and she used Dark Fire.

There were lots of powerful enemies, but I'd have to say that Catzi of the Four Dark Moon Sisters was the toughest. Our powers were equal, too.

Why High Heels?

With these, I punish the servants of evil! Aren't they cool?

The deep red heels are a symbol of my burning anger for the sake of justice. They're also a icon I use to punish evil as a warrior of love.

Most Painful Battle?

It was hard for him to regain control of his mind. I felt really bad for him.

There was a battle with the Monster called Jiji. Zoicite used her Dark Crystal to transform my Grandpa!

Guardian Planet?

In the Roman myths, Mars was a fierce god; but women warriors are beautiful.

Modern girls have one way to go, and it's to be assertive!

My Guardian planet, Mars, is the god of war and victory in Roman myth. It's a perfect match for a dynamic girl like me, don't you think?

Crystal Tokyo?

I played with Rini!

I defended Queen Serenity with the others, during the sudden attack by the Dark Kingdom.

Silver Millennium?

Sailor Uranus and all of the others were there with me, a long time ago in the Silver Millennium.

Most of the time, I lived in peace; but when I was called, I was one of the glorious warriors protecting the Princess.

Sailor Mars Weakness?

It was good until fighting the enemy at the Jyuban festival, but then...

When I say I'm clumsy, I mean not as clumsy as Serena.

I get angry easily, so I often tend to fall for traps. Also, I'm little bit clumsy, sometimes.

Sailor Scout difficulties?

Serena always does things that annoy me.

It's the fact that I have to face an airhead like Serena every day-it's really tiring.

Sailor Scout Advantages?

Everyone seems to like the priestess outfit.

I should say that I have good helpers: so, when it's busy at the temple, I don't have to worry about getting help (hee hee!)

If I had $10,000?

First of all I'd invest in myself

I wanna go traveling abroad, and then I'll eat a lot of great food there.

If not a Sailor Scout?

Brookfield High School - Cultural Festival
Raye will be the Queen of the Stage.

If I wasn't a Sailor Scout, I'd become a singer, and I wouldn't have to take entrance exams, or study.

Ever fought alone?

Sailor Mars fights for victory.

I will fight by myself. This is my destiny as Sailor Mars.

Any siblings?

I wish I could have sister like Rini.

I would be so busy, but I have Chad who can take care of things for me, so it's cool.

How did I meet Serena?

I put a ward on Serena's face by mistake.

People who went to Hikawa Temple disappered and she was searching for them.

Before Serena?

I was always by myself. Everyone thought I was weird.

People knew I could hear spirits and tell the future. That's why everybody was afraid of me.

Wanna be better than Serena at?

She is an expert in love.

I don't want to lose to her in the romance department. Soon I will get a better guy than Darien.

Serena is better at?

Serena Likes sweets.

She can't stop once she starts eating, candy, cakes, pies, anything!

Serena should stop at?

Don't talk so loud.

Don't make a fuss about unimportant things.

Don't be so serious.

There are more, but don't make me sit here all day and tell you all of them. I'll tell you another time.

My Motto?

With Chad I better be independent.

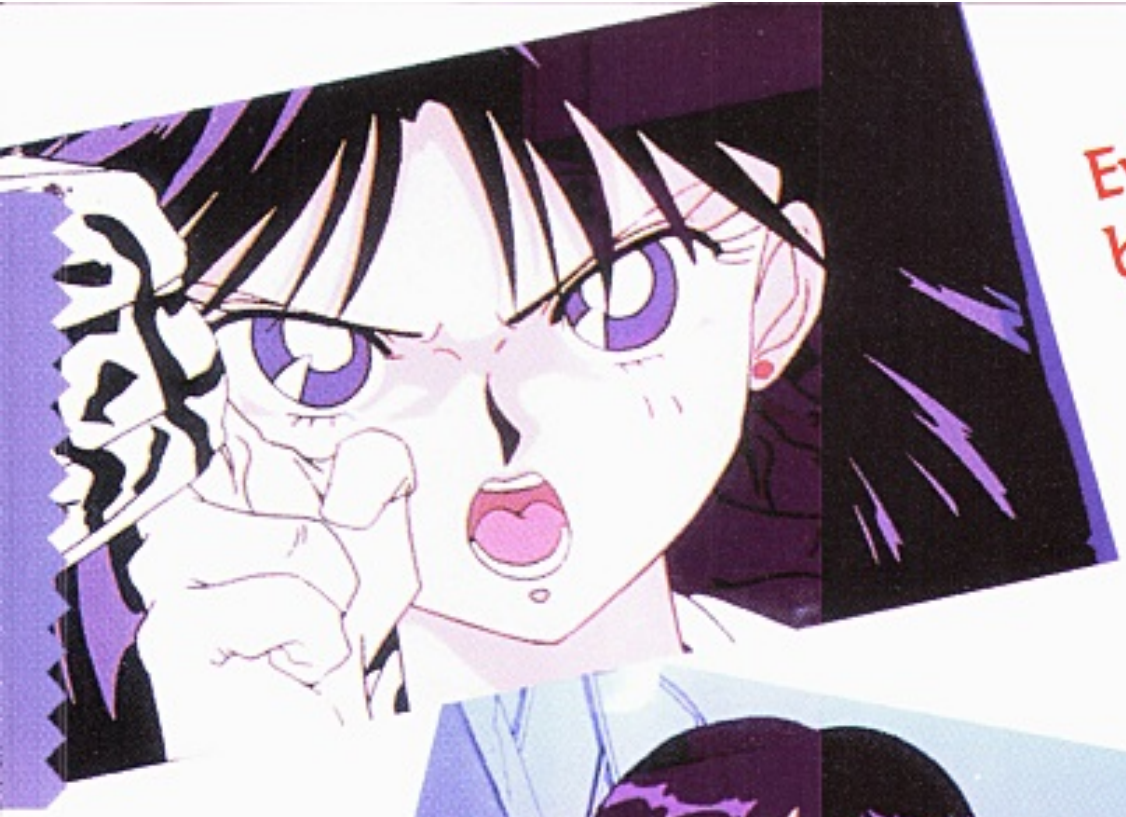
If you are madly in love, holding back might be hard.

First, don't rely on men. But if he is good looking, maybe a little bit.

Sailor Mars' Best Lines

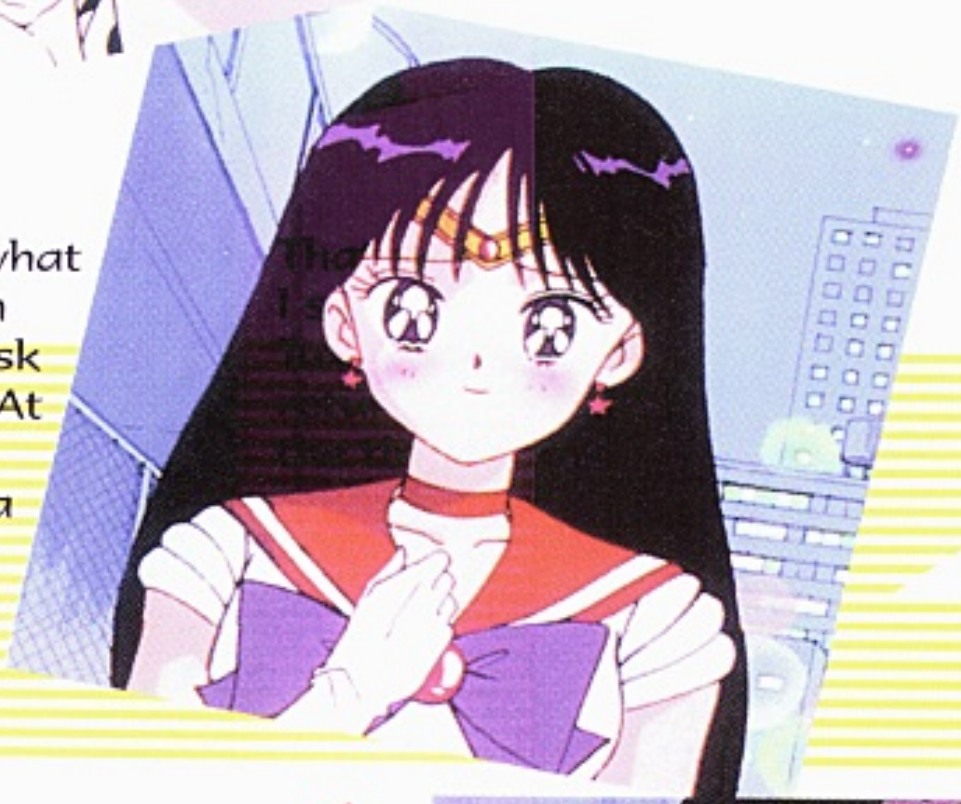
In this section, I'll show you some of the best of Sailor Mars' lines. They're awesome!

This is the cool battle cry I use when I fight off the bad guys. By the way, when I say 'punish,' I mean to right wrong.



Evil spirits, I banish you!"

This is my proud warding cry. I can knock down any brute with these sharp words!



That was what I said when Tuxedo Mask returned. At the time, I really had a crush on Darien.

Tuxedo Mask, you're safe now. Darien...

Serena, I'll make you suffer if you don't make Darien happy!

I said this to Serena to cheer her up when she was worried about Darien. Maybe I'm their matchmaker.

I should have kissed Chad...

After I fought with the DD Girls, I fainted. When I fainted I was thinking about Chad.

Grandpa, I will fight for you!

At Hikawa Shrine, Catzi, up to her usual no good, injured grandpa. This is the moment that I will change with anger.

You still have me...

I hate Catzi, but she is so sad!!

If I didn't meet Serena, I would be alone.

We always fight but to be honest Serena is very important to me.

Apologize to Haruka!

Some people misunderstand Haruka.

With the fire of passion and the power of prayer, I am Sailor Mars!

In the end, I will pose with a Sailor Mars stance.

No matter how evil the Enemy is, I will beat them. I will be there with my Red High Heels.

Raye's Friends

I'll introduce my friends to you: we'll go from my fellows scouts to my friends at school.

Complete Sailor Mars Encyclopedia

Once I went on a trip with Amy and Serena. We ran into a ghost!

The Sailor Scouts

Serena, who turns into Sailor Moon, is my best friend. Amy, who is Sailor Mercury, is truly a genius. Lita, who becomes Sailor Jupiter, is kind and supportive. Mina, Sailor Venus, is sweet and charming.

Super-nice Amy came to look after me.

The pillow fight we had just went on and on!

Amy is mainly in charge of analyzing the enemy.

The other four Sailor Scouts and I are teammates, and together we protected the Princess in our past lives.

Raye helps Unazuki. She's an expert when it comes to spiritual powers.

My personality may be the opposite of the gentle Amy, but we still get along.

There's a kind of love/hate friendship between Serena and me.

They're teammates I can trust.

The four friends just stand and stare as busy-bee Raye prepares for the festival.

On our way home after a fun day.

Rini is really attached to Raye.

For the rest of us, making up for Sailor Moon's mistakes is a very important part of our job!

They get into fights everyday. Drives everyone crazy.

When Raye hears a complement, she gets carried away. Not much different from Serena, is she?

Raye tries to cheer Sailor Moon up when she's depressed. They really have a close bond as friends.

They always end their fights by making faces and sticking out their tongues.

Serena tried to get me with hot pepper once, but all she got was some quick payback!
I always fight with Serena whenever anything goes wrong, don't I? She's clumsy, and she's always on shaky ground, so I have to look out for her.
Maybe the more we fight with each other, the better friends we become?

Darien and Raye used to go out together; but now that she knows how Serena feels about him, Raye broke it off.

Throwing herself at Darien.

They can't resist Tuxedo Mask.

Darien Shields

Darien is Serena's boyfriend; but whenever they're in trouble he comes to help out as Tuxedo Mask. In normal life, he's a University student.

She's Sailor Uranus' close partner, and they always stick together.

Sailor Neptune

She rides her motorcycle like a pro.

Sailor Uranus

Brookdale Prep school

My friends at school. They all call me 'Miss Raye.'

They come from well off families, so they all have good manners.

Catzi

She now lives as a human, in peace.

She operates a small cosmetic shop with her three sisters.

She used to be our Enemy, but now she's a good friend. I'm glad can be friends now.

Maya Tono

I asked her to be my guest, and beat our ceremonial drums (Taiko) at the festival. She's a master at Taiko, and very dedicated, too.

At the Jyuban Festival, she showed off her expert drumming ability.

She was picked out because of her dedication to drumming (Taiko).

Four Scouts standing strong, feel the power!

Our destiny is to protect Princess Serenity.

The Earth will be safe if the five Sailor Scouts will fight together.

Sailor Scout Technique - Sailor Planet Power

When we use Sailor Planet Power, all five Scouts have to be together.

The power will generate from the center of our circle.

Sailor Planet Power is the most powerful technique because of the concentrated power generated from our bodies.

These five Stones will shine like bright lights.

Just four Scouts creating Sailor Planet Power is possible, but it may be dangerous. We might lose with such low power.

I get the feeling someone I love is shutting me out .
Is he deceiving me?
Love died the moment suspicion was born.
Illusion of sudden loss, something important.
I think that way, and it pains my heart
I can't bear it any longer
And sometimes I think I'd like to be alone
To be free.

But in the end, I probably won't
Because I believe in him,
And I love him, and need him.

Loneliness... A word I hate.
I say just what's on my mind.
That's probably what makes people not like me.
But those are my true feelings.
Am I mistaken,
In speaking without pulling any punches?
To those whom I feel I can trust?
Trust is that energy,
People in love
Who believe in their relationship
Create together to build it up.

I like blazing-hot love.
I want to love someone passionately,
Like a roaring flame.
I want to love passionately.

FIRE LOVE IGNITE

Love is better to be intense.
I don't like sweet words,
Coming before you dream.
Burning Eyes... Go mad Love!

I feel the pain from the past,
But time heals all.
I leave without lying.
My body will explode. Go for broke!

This Town is like a broken necklace
I'm not gonna fail.
I'm strong even though I'm alone.
Take change in Style, Strike - Fighting pose!

Fire Love Ignite that Bird in Love,
Fire Love Ignite that Bird in Love,
Stand Up! Oh! Oh! Oh!
Fire Love Ignite that Bird in Love,
Fire Love Ignite that Bird in Love.
We'll wait for tomorrow, for passion I love.

I need Passion for love,
I'll forget all about the rules.
I'll seize my dream.
Explode my heart. Go Mad Love!
This is an earring,
I drop on the street.
I won't pick it up,
I'll take off my red high heels.
Don't be scared, Strike - Fighting pose!

Fire Love Ignite that Bird in Love,
Fire Love Ignite that Bird in Love.
Run, Oh! Oh! Oh!
Fire Love Ignite that Bird in Love,
Fire Love Ignite that Bird in Love.
Looking for peace to fire my passion!

Ancient Melody

I devoted my heart to the Sun.
Even though I can't,
Tell you my feelings,
You are in my heart.

Thank you,
For giving me courage.
This is my new power
That will cover everything,
And will shine.

Bigger than the sky and the ocean.
I realize that when I am in Love.
I want to swim in the river of destiny,
To strive for the mountaintop.

I am glad I met you.
You heal my old wounds.

I was in love for a long, long time.
Seeds will blow in the wind,
And your smile breaks,
In the soundless universe.
Everyone is alone,
But if you feel love ,
You can survive,
To tomorrow.

Now, I can feel my heart beat.
Everyone can feel the melody.
The dream is more pure,
Than the sky, and the ocean.
You told me it'd happen like that.

My Boyfriend - Galactic Version

I was born embracing the red star,
I can't offer just sweet love.
They say I have a profile of glass,
But they don't know,
The part of me that's in love,
My silence could be intensity.

You should know, dear,
The person chosen by the red star.

A pebble of love thrown at me,
I'll throw it right back, burning red.

Youth, playing isn't worth it,
Even just to kill the time.
You stopped me thinking I was someone else.
It was a silly first encounter,
But I knew with one glance you were the one.
My man, the love I'd been waiting for.
It's the will of the Red Star, you two.
That's how I feel. Of course it's the first time,
But I know.

They say I have a profile of glass,
But I know you alone understand me.
You figured out the real me, didn't you?
I'm rebellious because I'm shy,
Don't hesitate, my man.

You should know, my dear,
The personality chosen by the red star.
A pebble of love thrown at me,
I'll throw it right back, burning red.
